

Colorectal Cancer Awareness Event

Northern Valley
Indian Health

CHAPA-DE
INDIAN HEALTH

If you're age 45 or older, you should start getting screened for colorectal cancer.

Colorectal Cancer is the 2nd highest cancer diagnosis in Native People.

Dignity Health, in collaboration with Sacramento Native American Health Center, Northern Valley Indian Health, Chapa-De Indian Health, and the American Cancer Society invite you to a ZOOM educational event to promote colorectal cancer awareness and show how screening can save lives.

Please join us!
